

## Summer!!!!

This month's issue is going to be packed with all things summer! The latest trends in nail colors, tips for Dad's hair and what your summer style is! And of course we will have a trivia question!!

### Summer Nails: Shellac and Vinylux!

This summer, make it all about the nails. Nail color is quickly becoming the most popular way to match an outfit, stay current in color trends, and accessorize! Now that it's summer let's make sure you get all the bright colors that are trending right now! For your fingernails we offer the traditional manicure with trimming, cuticle shaping and polish for \$20. We have a wide variety of colors in traditional polish, as well as colors that will last longer in Vinylux and Shellac polishes.

If you decide that you need a longer lasting polish we offer Vinylux. It's CND's new line of polish that boasts week long wear without chipping! Our stylists have been testing it out and they can vouch for it!

For those of you who don't mind a bit longer of a process and require two week wear without touch ups, Shellac is for you. CND created this polish that hardens under lights and will grow out before it chips off!

#### Hours:

Monday	Closed
Tuesday	10am – 8pm
Wednesday	10am – 8pm
Thursday	10am – 8pm
Friday	10am – 8pm
Saturday	8am – 5pm
Sunday	11am – 4pm

940 Trowbridge Rd.  
East Lansing, MI 48823

[Newstylesalon.com](http://Newstylesalon.com)  
And on Facebook!

#### Services Offered

- Shellac Nails!
- Massages!
- Color and Highlights!
- Conditioning Treatments!

## Does Dad Need Hair Help for Father's Day?

We just spent time spoiling Dads everywhere for Father's Day, but have we made sure their hair looks good lately? If your Dad's doesn't maybe it's time to give him a hair upgrade!

If Dad's hair is long, let him know that shorter styles are easier to work with, cooler in the summer and don't always have to look like a buzz cut. Shaping and fading can offer many different styles.

Dad's with short hair may always have wondered what it was like to grow it long! Ask them! We can help with touch ups along the way and offer styling advice to keep it low maintenance. But, if dad wants to keep his style, whether it's long or short, we offer a lot of professional products to change up his style without changing the length.

*Finally, if you need a solution to keep hair out of your face but still looking classy – go with a braid!*

## What should your summer hair be!?

Summer is a time to get outside and enjoy the weather! It's a great time to embrace the natural style of your hair because it takes less work when you allow your hair to act the way it wants to!

If you're a curly girl that is glued to her straight iron let your hair dry naturally a few times, add some shine spray and some anti-frizz product and embrace the beachy look you get!

If your hair is straight enjoy the fact that you can achieve smooth straight locks without the work and instead dress up your look with a cute headband, sunhat, or flower!

Summer is a good time to allow hair to be natural because it fits with the outdoorsy look. What can put a little sun in your hair though is a set of highlights!

Add a little splash of light color to make that tan stand out and make your hair look sunkissed! You can get partial highlights for some color just on top, all over highlights for a lighter shade

throughout your hair, or ombre color with a lighter touch to the bottom of your hair!

Finally, if you need a solution to keep hair out of your face but still looking classy – go with a braid! Braids are really popular right now!

Pinterest is loaded with braid ideas for your whole head or just your bangs and offers great tutorials for the novice. French braiding, fishtail braids and a simple three strand braid all can add a little fancy to a normal hairstyle! No one will guess you are really just trying to keep your hair under control!

## Trivia!

### Question:

Roughly, how much hair does the average person grow per month!?

- a. 1 inch
- b. 0.5 inches
- c. 1 cm
- d. 2 inches

Look for the answer next month!

\*Last month's answer:

Hair covers MOST of the body, but not the lips, soles of our feet, and palms!

*Beauty draws us with a single hair.*

*~Alexander Pope*
